

! Important

You've received a duplicate radon tester as part of our quality controls to ensure everyone gets reliable results.

Instructions

- Follow registration instructions and register both detectors
- Place each detector 10 cm (4") apart
- Leave side by side for the full duration of the test (**90+ days**)
- Once the test is complete, place both devices in the same PRE-PAID return envelope

**Place
Detector
1 Here**

Use this card as a placement template

10 cm (4")

- Same Location
- Same Registration
- Same Length of Time
- Same Return Envelope

**Place
Detector
2 Here**

Do **NOT** place them in separate rooms, on different floors or different houses. This will invalidate the duplicate control.
